Subject: OPW Product Compatibility with E85

To Whom It May Concern:

This letter is to confirm that OPW products are compatible with 85% ethanol fuels (E85). OPW is currently in the process of obtaining third party testing with Underwriters Laboratories (UL) for a UL listing of OPW products for use in E85.

The Handbook for Handling, Storing, and Dispensing E85 recommends that cast aluminum (sand or die cast) must be nickel plated for E85 applications.

Below you will find a list of OPW products that meet these specifications. If you have any questions regarding these or other OPW products, please contact your OPW district manager.

Compatible Products with E85

<u>Part Number</u>	<u>Description</u>
11AP-0492	Automatic Nozzle -Conventional
45-0492	Swivel -Conventional
66V-0492	Breakaway-Conventional
11VF-0492	Balance Vapor Recovery Nozzle
66CL-0492	Balance Vapor recovery Breakaway
633T Series	Bronze Fill Adaptors
61SA Series	Bronze Fill Swivel Adaptors,
1611AV Series	Bronze Vapor Adaptors
61VSA Series	Vapor Swivel Adaptors
634TTSeries	Fill Caps
1711T Series	Vapor Caps
61SOM-4121	Overfill Valve for Gravity Systems
10B – Series	Shear Valves
233V- Series	Extractors
61fSTOP-100M, 200M, 305A	Overfill Valve for Pressure Systems
199ASV	Anti-Siphon Valves
200TG	AST Mechanical Tank Gauge
144TA	AST Liquid Level Tank Alarm
201 & 202 Series	AST Emergency Vents
PISCES products	All Pipe, Sumps and Fittings
